Metaphysics is the study of ultimate cause in the Universe. Metaphysics is the only science capable of inquiring beyond physical and human science. Traditionally, the word Metaphysics comes to us from Ancient Greece, where it was a combination of two words – Meta, meaning over and beyond – and physics. Thus, the combination means over and beyond physics.

## **What is the meaning of Metaphysics?**

Metaphysics is concerned with explaining the way things "are" in the physical world. It is concerned primarily with 'being as being' i.e. with anything in so far as it has act of existence. However, metaphysics is not concerned with examining the physical properties of things that exist, but is, instead, the study of the underlying principles that give rise to the unified natural world.
