You build bridges! In the context of writing a paper, these bridges are your transitions. You have two ideas that are related— islands that are close enough that you can build a bridge between them—but ultimately distinct. In order to help your readers across that gulf, then, you need to put in a transition. But what exactly is a transition?

Building Bridges! I  
Corinthians 9:16-23 .  
There are many  
different kinds of  
bridges in this world.  
Some are wooden,  
some are stone, and  
others are fabricated of  
steel. Some are small  
some are massive, but  
they all function  
basically the same  
way. They span a  
chasm.

By Will Allen

Dromgoole. An old man  
going a lone highway,  
Came, at the evening  
cold and gray, To a  
chasm vast and deep  
and wide. Through  
which was flowing a  
sullen tide. The old  
man crossed in the  
twilight dim, The sullen  
stream had no fear for  
him; But he turned  
when safe on the other  
side. And built a bridge  
to span the tide.
