Constructivist teaching is based on constructivist learning theory. Constructivist teaching is based on the belief that learning occurs as learners are actively involved in a process of meaning and knowledge construction as opposed to passively receiving information. Learners are the makers of meaning and knowledge.

Ditch your
expectations:

Constructivism is not about test results and rote learning but about developing the child's senses and understanding of the world around him. Find ways to encourage that learning through doing activities that are free of set limits and end results.
